MOTHER OF ALL TRUSTS

Customs Tariff Declared to Be an Incubator of Combines.

TESTIMONY OF HAVEMEYER.

President of American Sugar Refining Company Reads a Spicy Paper Before Industrial Commission. Defends His Methods.

Washington, June 14.—Henry O. Havemeyer, president of the American Sugar Refining company, was examined by the industrial commission in connection with its investigation of trusts.

His testimony related almost wholly to the sugar industry and he opened with a vigorous attack upon the customs tariff which he declared was the "mother of all trusts," becoming such by providing "an inordinate protection to manufactured articles." This attack was made in a written statement which the witness had prepared before making his appearance before the committee and which he read in a ringing voice.

Continuing his statement, he asserted that a tariff of 10 per cent. was as high as any tariff should be. He contended that sugar is discriminated against in the tariff in the interest of Louisiana cane growers, the beet sugar makers and the sugar growers of the Hawaiian islands. To these interests he contended the United States contributed \$24,000,000, which was taken out of the pockets of the people.

The protection on sugar amounted to only one-eighth of a cent a pound or about three and one-half per cent. ad valorem. It ought to be twice as much. "What the sugar refining business has paid or is paying is nothing more than adequate return on the capital invested."

What congress should have done was to have put an internal revenue tax on the American production of sugar. The representations made in congress concerning the trust, he declared, were untrue, and if it was a fact that the people suffered from trusts they must blame the protective tariff system of which the trusts were merely the machinery.

No advantage had ever been taken by his company of the protective system beyond the one-eighth of a cent given. He admitted freely that the company did all possible to advance its own business interests. He did not think the corporations were under obligations to the different states, but that the reverse was true.

"Capital and labor," he stated, "would all adjust themselves if let alone. The only way to prevent competition, Mr. Havemeyer testified, was to keep prices at a minimum, not necessarily in the interest of the consumer, but as a matter of business. He referred to the trust laws of some of the states as a premium on dishonesty and specifying the Missouri law. There were always two classes of people in the community, the industrious and those who wanted to live off them.

Replying to the questions by Professor Jenks after he had concluded the reading of his paper, Mr. Havemeyer said the American company was capitalized for much less than it was worth. "But for the clamor against trusts," he said, "it could be sold for three times its capitalization. Yet he thought the refineries could be duplicated for \$30,000,000 or \$40,000,000. The present capacity of the trust," he said, was 45,000 barrels a day and the output 30,000. He thought the trust was refining about 90 per cent. of the sugar refined in the United States.

The witness spoke very freely of the methods of the company in preserving and extending its business. Of the earlier history of the enterprise he said it did not fight the Harrison refinery at Philadelphia. "But we had to fight Spreckels when he came into the field with his enormous plant. We had to do that or suspend our dividends. We went into the fight and we kept it up until we got the refinery." The little drop in the price of sugar had been caused by the starting of the new refineries which had threatened to take 50 per cent. of the business. "It was a part of our policy to put prices down and let the opposition take the result whatever it may be. Every sale made by the opposition displaces so much of the American company's product," he said. "We must protect our own business."

Mr. Havemeyer then went on to say that what the company did it did not do for motives of philanthropy, that it had its own shareholders to protect. "Anybody can buy our stock," he continued, "and as a consequence the public owns the stock. But I doubt whether any one would want any of the stock of the independent refineries."

How many stockholders have you? asked Prof. Jenks.

"About 11,000," he replied, and added: "Enough to take Cuba and they would take it if they could."

The latter remark was made in a light vein. He stated as his opinion that the Cuban sugar should be brought in free of duty and that this course would bring refined sugar down to three cents a pound.

Speaking of the coffee business, Mr. Havemeyer said he was in the business and in it to stay.

SHOP MEN

Went up Several Cars in Cleveland at the Noon Hour.

Cleveland, O., June 14.—There has been little change in the street railway strike situation, cars having been running at six-minute intervals over the Euclid avenue line of the Big Consolidated system and none has been interfered with. New men are constantly received at the company's barns.

A serious riot broke out shortly after noon at the Cleveland and Pittsburgh railroad crossing on Perkins avenue. Some 5,000 men are employed in the great machine and other shops in that vicinity and a crowd of 500 of these held up five Wade Park avenue cars, blocking the tracks and stoning the cars.

The small escort of police on each car was powerless against the mob. J. H. Anderson, a non-union motor-man, was struck by bricks and seriously injured. Reinforcements of police finally dispersed the mob and cleared the track.

At Miami University.

Oxford, O., June 14.—There is a large attendance here at the diamond anniversary of Miami university. The seventy-fifth commencement is being made the occasion for a reunion of the alumni and a new era for this old institution. The Phi Delta Theta fraternity was founded here 50 years ago and it celebrated the event with the dedication of a tablet in Bishop hall at which three surviving founders were present, Dr. Morrison, John W. Lindley and Andrew W. Rogers. Among those present were Hon. Whitelaw Reid of the New York Tribune, orator of the diamond anniversary.

New Incorporations.

Columbus, O., June 14.—The Rubel Herman company, Cincinnati, amendment changing name to the Rubel-Gluck company; the Safety Emery Wheel company, Springfield, increase of capital stock from \$50,000 to \$100,000; the Tremper Shoe company, Portsmouth, increase of capital stock from \$25,000 to \$50,000; the Lorain Building company, Lorain, increase of capital stock from \$80,000 to \$100,000; the Millington White Sand company, Cleveland, capital stock, \$25,000; the Monroe Falls Paper company, Massillon, capital stock, \$25,000.

Check For Marietta College.

Marietta, O., June 14.—Eighteen months ago D. K. Parsons of Chicago made a subscription of \$25,000 for a permanent endowment of Marietta college, conditioned upon the college raising \$75,000 and the debts being all paid up by June 15. Tuesday W. W. Mills, for the trustees, announced that the \$75,000 was more than pledged, and that every dollar of the college debts was paid. Dr. Parsons has sent his check for \$25,000.

Seed Men Meet.

Cincinnati, O., June 14.—The seventeenth annual convention of the American Seed Trade association re-convened with about 60 members present.

Not Ready to Adjourn.

The Hague, June 14.—It is now expected that the peace conference will not adjourn before the middle of July as it is thought the labors of the delegates will not be finished before that time and there is the additional question of the acceptance by the powers of the decision adopted by the conference. The delegates who desire to see some tangible result accomplished by the conference recognize that if the members are contented with simply transmitting the decisions to their respective governments the work of the delegates will simply be pigeon-holed in the various chancelleries of Europe and will not be executed.

Drought In New England.

Boston, June 14.—Reports received from various sections of New England indicate that the present drought is general and destructive. The financial loss to farmers will be excessive for practically the hay crop in southern New England is a failure in quality and amount and marketing gardening in districts adjacent to the larger cities has not yielded paying returns. In northern New England the conditions are vastly better than in Massachusetts, Rhode Island and Connecticut, but strange the entire coast line is suffering from dryness, while the interior states get a little moisture.

Promotion.

"Miss Mary, are you sorry that your sister Evelyn is married?" "No, it advances me one number." —Chicago Record.

DISASTER AT HERMAN.

Little Town in Nebraska Nearly Wiped Out of Existence.

STRUCK BY INVISIBLE GIANT

Shortly Before Sunset a Funnel-Shaped Monster Bore Down Upon Place Leaving a Path of Death and Destruction.

Herman, Neb., June 14.—Ten were killed and about 25 injured in Tuesday's tornado. It is thought all are now accounted for unless the storm has been more disastrous in the country than now anticipated. Not a single building in the town is left whole.

Blair, Neb., June 14.—One of the worst storms that ever visited this section of the state dropped down upon the little town of Herman, located ten miles north of here.

For some two hours before the storm took a disastrous form the clouds were of a threatening color and the air was hot and sultry. At 6 p. m. the storm seemed more threatening and the people were on their guard.

At 6:15 it was observed that the wind was blowing from the northwest and from the southwest, and with increasing violence.

At 6:30 it took the funnel-shaped appearance and bore down upon the town. The first damage done was about four miles west of Herman at the Hawkins farm. Mr. Hawkins is dead and his barn and outbuildings are in a mass of ruins. In the village of Herman but few buildings were left standing. The business portion and the residences were piled up in a heap. That any escaped is miraculous.

The bank owned and operated by Representative J. H. Chambers is a mass of ruins. It was a substantial brick. His home, an elegant frame, escaped.

Near the depot is a pile of rubbish containing everything from a pair of boots to dead and wounded horses, cattle, etc.

The dead thus far reported are: Mr. Hawkins, W. S. Richards, postmaster, Herman; A. B. Hopkins, Herman; Mrs. A. B. Hopkins, Herman; M. Clausen, Missouri Valley, Iowa; Mrs. Kelso, John Hopkins, Herman.

Hunting For the Dead.

New Richmond, Wis., June 14.—No bodies were recovered from the ruins during the night, the work being abandoned on account of the heavy rain which fell during the greater part of the night and partly by exhaustion of the working parties. Many messages have been received offering financial assistance. The total amount thus far offered is about \$2,600. The militia is patrolling what was the business section of the town and nobody is permitted inside the lines. At first so many visitors from the surrounding country were swarming around the working parties that it was very difficult for them to work. The number of dead still in the ruins is variously estimated, some estimates running up to 100 and others being placed at 50. O. W. Mosher, who has been at the head of the relief work, says that fully 65 children were still missing and a large number of adults as well. His estimate is considered as being too large.

Numerous Funerals.

New Richmond, Wis., June 14.—All the morning funerals were passing through the town. There was but one street passable and this was a narrow, muddy thoroughfare between the ruins of buildings. Frequently there was a blockade as a funeral going east and one going in the opposite direction would meet. There were no hearses and the dead were carried to their graves in grocery wagons. During the early part of the morning there was lack of men to dig graves. No more bodies had been recovered up to noon.

PLEADS GUILTY.

Bella Anderson Confesses to the Kidnapping of Marion Clark.

New York, June 14.—Bella Anderson, alias Carrie Jones, pleaded guilty in the criminal branch of the Supreme court to the indictment for kidnapping Marion Clark. She was remanded to the toms.

A Temporary Settlement.

London, June 14.—The U. S. ambassador here, Joseph H. Choate, has received from the foreign office a communication on the Alaskan question which, it is understood, is a satisfactory temporary arrangement of the affair until the meeting of the high commission in August.

Dreyfus Will Land at Brest.

Brest, France, June 14.—It has been definitely settled that Captain Alfred Dreyfus who left the waters of French Guiana June 10, on board the French cruiser Sfax, will disembark here. The military authorities of this port have been notified to that effect.

THE CHICAGO PLATFORM.

Pennsylvania Democrats Decline to Specifically Indorse It.

Harrisburg, Pa., June 14.—For the first time in many years the Democracy enters upon a state campaign assured of the success of at least a portion of its ticket.

This is due to the conditions governing the election of two Supreme court judges next November to fill the vacancies caused by the death of Judge Williams and the retirement of Chief Justice Sterrett next January.

No elector is entitled to vote for more than one candidate for this office and as there will be two elected, each of the great parties will get one.

Governor Stone will probably appoint the Democratic nominee as soon as his nomination is certified to the state department in which event he would rank the nominee of the Republican state convention which will not meet until August or September.

Ex-Congressman Simon P. Wolverton and Superior Court Judge Smith, of Scranton, are leading candidates. The selection of the candidates for the offices of state treasurer and superior court judge and the making of a platform has been almost entirely lost sight of in the struggle for Supreme court judge.

Only a few of the score of candidates are here, but each has his political manager with a host of lieutenants and shouters. The best of feeling seems to prevail among the friends of the various candidates and the rivalry thus far has been very friendly. Representative William T. Creasy, of Columbia, is almost certain of the nomination of state treasurer. All indications point to a two days' convention.

The convention was called to order by State Chairman Riley. Temporary Chairman William M. Brighton, of Lancaster, made a brief speech congratulating the Democracy on its fight in 1896 and 1898. His mention of the name of William J. Bryan as one great leader of the Democracy was received with the wildest applause.

The platform as prepared by the executive committee (was adopted by the resolutions. A motion to amend by making a straight-out declaration in favor of the Chicago platform was defeated by a viva voce vote.

The platforms declares in favor of the principles in platforms of several national conventions and is proud of the matchless leader, Bryan; condemns Republican corruption in state affairs and the appointment of Quay as senator by the governor and denounces trusts.

A SUDDEN LURCH

Sent the Steamer Macedonia to the Bottom After a Collision.

New York, June 14.—The steamer Rescue arrived in quarantine having on board Captain Kuffahl, six of the crew, and Charles W. Moss and Herman Brandt, two passengers of the steamer Macedonia, of the Ward line, which was sunk by the steamer Hamilton of the Old Dominion line. The remainder of the crew and one passenger, F. W. Wright, landed at Long Branch.

After the Hamilton became cleared from the Macedonia and seeing the ship still afloat Captain Kuffahl returned to her and endeavored to beach her, but she suddenly took a lurch and sunk in six fathoms of water about seven miles south of the Scotland light ship and one and a half miles off the shores. She lies on even keel and only the top of her funnel and her two masts are visible. The passengers and crew saved none of their personal effects.

Refused to Change.

Washington, June 14.—A queer mixture of international politics and business is reported to the state department by U. S. Consul Heenan at Odessa, Russia. He says that through its ambassador at St. Petersburg the French government asked to have a contract for the supply of a large quantity of iron water pipe taken from an American firm and given to a French firm on the ground that the close relationship existing between Russia and France entitled them to favors of this kind. The Russian foreign office took the matter up and the governor of Odessa was directed to see what could be done. He was obliged to report that the town refused to change their arrangements.

Dewey at Singapore.

Singapore, Straits Settlement, June 14.—Admiral Dewey landed here from the Olympia, which arrived here June 11 and bade farewell to the governor, Lieutenant Colonel Sir C. V. H. Mitchell. The admiral sails for Colombo, Ceylon. He will probably visit the hills of Ceylon for the benefit of his health. The officers of the Olympia were entertained at dinner by the officers of the garrison here.

Paris, June 14.—President Loubet received M. Poincare for the purpose of intrusting him with the task of forming a new cabinet. M. Poincare asked for time to deliberate and will give the president a definite reply later.

FILIPINOS DRIVEN OUT.

Americans Force Them to Flee From Their Intrenchments.

SWAM THE ZAPOTE RIVER.

The Casualties Among the Troops of the United States Numbered About Fifty—Enemy's Losses Were Several Hundred.

Manilla, June 14.—Before dark the Fourteenth infantry swam the Zapote river, charged and carried the trenches, a heavy fusillade of artillery preparing the way and covering the crossing.

The insurgents broke for the woods before the Fourteenth reached them. Almost at the same time the Ninth and Twelfth crossed a bar of the sea and came upon their left flank at a point where a body of marines with Maxim guns landed under protection of the ships' batteries and fired upon the enemy's left rear with a demoralizing effect. The Twentyfirst crossed the river by a bridge as soon as it could be mended.

Sixty-five dead Filipinos were found in the trenches, most of them shot through the head. Several five-inch smooth bore guns were captured with ammunition marked "United States navy yard."

After crossing the river the troops were withdrawn with the exception of the Ninth and Twentyfirst, these regiments being left with four guns to guard the bridge.

As they were being formed into companies the insurgents commenced to fire volleys from the bamboo jungles 300 yards away. The regiments formed into line rapidly and coolly, though under fire, and cheering rushed to the woods driving the enemy a mile away, the Filipinos disputing every foot.

The Fourteenth encamped across the river, the men caring for many of the wounded Filipinos. Many prisoners were captured. The majority of the Filipinos wore red uniforms.

Report From Otis.

Washington, June 14.—The following was received at the war department from Otis at Manilla: "Lawton's troops under Owenshine and Wheaton occupying the country south to Bacoor have scouted westward and some distance southward on line of Zapote river and Bacoor road. Enemy appears to have retired, abandoning the bay country; the fighting Tuesday was severe; our loss, 10 killed and 40 wounded; majority at crossing Zapote river, enemy driven from heavy and well-constructed entrenchments to which they held tenaciously; their loss was several hundred, of whom 50 were buried at daylight. Will not probably make any determined future stand in southern provinces."

Report From Barker.

Washington, June 14.—The navy department has received the following cablegram from Captain Barker, the naval officer in command at Manilla, respecting the fighting there Tuesday: "The insurgents fired at navy yard masked batteries. Ships of war shell position and entrenchments. The Helena and Monadnock landed forces to assist in maintaining the position until reinforced by the army. The movement was successful, the enemy being routed. No casualties in the navy."

Troops Start Home.

Manilla, June 14.—The First volunteers started home on the transport Newport, the transport Ohio carrying the Oregon's First volunteer signal company, sailing for San Francisco via Nagasaki. They are expected to arrive July 12. The outgoing Oregon troops left 62 dead from battle and disease, the result of the year's campaign. The vessels were cheered as they steered out of the harbor.

Message From Transvaal.

Brussels, June 14.—Dr. Leyds, the representative in Europe of the Transvaal republic, received the following conciliatory dispatch from Peoria: "The government does not make arbitration a condition of concessions. It will continue to make concessions, even as regards the franchise, independently of Great Britain's acceptance or non-acceptance of arbitration."

Pingree Will Not Retire.

Chicago, June 14.—A Chicago editor received the following telegram from Governor Pingree, of Michigan: "Your telegram asking me if I contemplate retiring from politics came to my attention on my arrival here. It is the duty of every citizen to take part in politics. I do not intend to neglect my duty."

New York, June 14.—Justice Beach in the supreme court has denied the application of Roland B. Molineux for writs of habeas corpus, certiorari and prohibition.

INDICATIONS—Generally fair to-day,
increasing cloudiness Friday; variable winds.

It would be a good move for the Democrats of Kentucky to cut loose entirely from Louisville. The disreputable gangs in control of political affairs in that city are a disgrace to any party.

The Ironton Register truthfully says: "People throw paper on the streets as if they had a right to. They have not. It is against the law. But if it isn't, a spirit of pride in the appearance of the town ought to cause them to desist. Here is a little verse that fits the case:

"In the barrel put your papers,
Neighbor mine!
Think not these are idle vapors,
Neighbor mine!
If you will but lend a hand
Soon our city dear will stand
With the fairest in the land,
Neighbor mine, neighbor mine."

There are other things worse than paper, neighbor mine.

It disgusts fairminded people of every party to see the President of a great nation pursue the course described below. The New York World's Washington correspondent says:

President McKinley still delays announcing his decision in the case of Captain Oberlin M. Carter, United States Corps of Engineers, who was convicted by court-martial of appropriating \$1,600,000 of Government funds. He has had the matter under consideration for a year. All he has done is to refer the findings to Attorney-General Griggs for review, an unprecedented procedure.

The President yesterday received the papers in the case of Captain John M. Neall, Fourth Cavalry, who was tried by court-martial for misusing \$1,635 belonging to the canteen fund. There has been no delay in the case of Captain Neall and no reference to the Attorney-General.

The court-martial, which was convened by General Shafter at San Francisco, recommended Captain Neall's dismissal.

Captain Carter got \$1,000 for every dollar taken by Captain Neall. Captain Neall also made restitution.

The President will announce soon his decision in the case of Captain Neall. His intentions regarding Captain Carter remain an enigma.

OHIO GAS FIELDS

Gradually Failing, and the Big Pipe Lines Are Being Abandoned.

[Chicago Tribune.]

Ten years ago the daily capacity of the natural gas wells in the Findlay (Ohio) fields was 200,000,000 feet. Now it is down to a few million feet, and the pressure is so low that the supply is almost useless. This year will mark the passing of natural gas as a fuel in all of North-western Ohio. The big pipe lines which carried gas to Toledo, Tiffin, Sandusky, Norwalk and many smaller places are fast being abandoned and the pipes taken up. The pump stations of the North-western Natural Gas Company are shut down, as are those of the city of Toledo, which cost the municipality \$1,500,000. The gas would have lasted many years longer if in the early years of its discovery it had not been wasted. The famous Karg well, probably the greatest gas producer ever opened up, was allowed to burn unconfined for months at a time, millions of feet going to waste daily. All through the natural gas belt, in the early days of the craze, the streets were lit by great torches, the flames from which sometimes flashed up thirty feet into the air.

Lieutenant Harbeson Slightly Wounded.

"Wounded, leg; slightly," was a brief cablegram Judge Harbeson received Wednesday afternoon from his son, Lieutenant Harbeson, who is now with his regiment in the Philippines. The wound was probably received in Tuesday's battle at Las Pinas. The above is the only information yet received by Judge Harbeson.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and \$1. Trial bottles free at J. J. Wood & Son's drug store every bottle guaranteed.

THE "New Philippines" was the old name of the country now embraced in the boundaries of Texas.

A RIOT between eighty-three convicts in the county jail at Frankfort was started Wednesday afternoon by an argument between two moonshiners regarding the race for the Democratic nomination for Governor. Jailer Joe Holton was assaulted and the fight became general. The prisoners armed themselves with case-knives and forks and other implements of tableware. Several outsiders were summoned and succeeded in quelling the disturbance without anybody being seriously hurt.

THE Mitchell & O'Hare Hardware Company having transferred all its stock to the O'Hare Hardware Company, the management and control of the business house, No. 9 W. Second street, will henceforth be assumed by the latter new company. The capital stock of the new company having been materially increased, new merchandise enlarged by new lines, and courteous treatment will always be found at its store. In retiring, the old company expresses its gratitude for a past generous public patronage and bespeak only commendatory words for the new, which will be known as the O'Hare Hardware Company.

Friday's Cash Sale

CHILDREN'S STOCKINGS.

If you could have the goods before you as you read the prices you would get an understanding of what is being offered you that mere type can never convey. But take this from us: Stronger values than these even Hunt's has never carried in regular stock and we have never surpassed them in the most important of special sales. The hosiery was secured at half price and it goes on sale. There is a reason, of course, for the price sacrifice. A jobber handling several lines of hosiery decided to retain but one and placed upon the market the odd assortment at exactly half price. There are two lots—both seamless—narrow ribbed, fast black cotton with extra apliced heels, knees and toes, carefully made and elastic. The stockings have never been sold under 15c. and 25c. Friday the prices are exactly cut in two—7½ and 12½. We cannot say too much of this bargain of bargains. No fear of disappointment; only agreeable surprise awaits you that such values can be bought for the money.

WOMEN'S Lisle STOCKINGS, 25c.

instead of 35c. Plain or dropped stitch, fast black, fine gauge. They were offered in a special sale last month and are good enough to repeat.

The Bee Hive

A Summer Sale of Linens!

By a very large purchase of choice linens, way under market prices, we are enabled to put on our counters an immense stock of Towels, Table Coverings, Napkins, &c., at prices most surprisingly low. This sale will last but a fortnight, and if there's anything lacking in your linen closet, you'll find this a rare opportunity for profitable linen buying.

TABLE COVERS.

Our special leaders are a fifty-inch bleached cloth, warranted pure linen, and worth fully 40c., at 25c. a yard; a sixty-four-inch cloth, half bleached and every thread linen, at 39c.; the regular 75c. Satin Damask Cloth, all linen, at 50c.; a sixty-six-inch full bleached cloth, the regular \$1 kind, at 69c.

NAPKINS.

Napkin prices during this sale will be temptingly low. There are many different kinds to choose from, ranging in prices from 59c. to \$4.50 per dozen, every one at least 30 per cent. under ordinary prices.

TOWELS.

Linen lovers will find our stock of Towels replete in every way. We'll sell you a thirty-inch all linen Towel at 10c. that is worth more than half again as much, at 19c., and 25c. you'll find a forty-inch all linen heavy Huck or Damask Towel, either hemstitched or fringed, that would be lowly priced at 35c. Towel prices range from 3c. to 75c.

A \$1.25 Eleven Quarter Quilt for 89c.—We haven't space enough to describe this bargain Quilt properly. But if you are in need of any, please call and test the truth of the above statement, namely a \$1.25 Quilt for 89c.

TURNPIKE QUESTION

Committee From Board of Trade Will Try to Effect a Settlement.

The Board Endorses the Call For a Mass Meeting Next Monday Afternoon.

At the meeting of the Board of Trade last evening the turnpike question was considered at some length. Several addresses were made. The general sentiment was that every effort should be made to secure a settlement of the question, and a motion was adopted endorsing the call published elsewhere for a mass meeting to be held next Monday, this call having previously been issued by other parties. The directors and members of the board were urged to attend Monday's meeting at the court house.

Afterwards, on motion of M. F. Marsh, the Chair was authorized to appoint a committee of representative business men and citizens to confer with the turnpike companies, and urge upon the companies the great importance of settling the question at once. The committee is to secure, if possible, a proposition that would prove satisfactory to all parties interested.

The Chair has appointed as said committee the following,—the five gentlemen first named being the Board of Trade's Arbitration Committee: Garrett S. Wall, Samuel M. Hall, A. R. Glascock, C. B. Pearce, Jr., James W. Fitzgerald, M. C. Russell, E. A. Robinson, J. F. Barbour, John B. Holton, J. James Wood, D. Hechinger, Perry Frankel, Thomas A. Davis, W. T. Cummings, John M. Hunt, C. C. Calhoun, J. Henry Pecor, T. J. Chenoweth, Fred Zweigart and Jesse H. Calvert.

Col. W. W. Baldwin was seen this morning by some of the committee and will meet the committee and submit a proposition. Officers of the other company will be seen to-day, and it is to be sincerely hoped that this question that has proven and is proving so costly to the county will be promptly and satisfactorily settled.

An "old fashioned fiddlers' contest" will be a feature of Carlisle's street fair June 29th and 30th.

Inherit a Fortune.
[Fleming Gazette.]
Word has been received here of a piece of good fortune on the part of Misses Alice, Anna and Nellie Lanaghan, daughters of Jas. Lanaghan, formerly of Flemingsburg but now of Chicago. The news is to the effect that Mrs. White, a very wealthy widow lady of Chicago, recently died and left \$50,000 to the first named, \$10,000 to the second and \$3,000 to the third. Miss Alice Lanaghan was a companion to the deceased woman, who it seems was very much attached to the Misses Lanaghan. The news came in the shape of a clipping from a Chicago paper.

THE TIGER TOBACCO TRANSPLANTER.

Makes the farmer absolutely independent of the weather. He sets his plants when he gets his ground ready, rain or shine. The superiority of the Tiger over all other Transplanters has been plainly demonstrated during seasons of severe drouth, when experiment proved it to be the only machine that could be depended upon to give a good stand of plants under any and all weather conditions. With the TIGER the plants are properly set. The roots are in the puddle formed by the water, loose earth being forced down around and above the plant. In effect the water valve on the TIGER stands still at each hill long enough to pour the water precisely where it is wanted—a feature that cannot be duplicated by any machine devised by man. THE TIGER PUTS THE WATER JUST WHERE IT IS NEEDED—AT THE ROOTS. There are many superior points on the TIGER that makes it far ahead of any other Transplanter ever put on the market. We ask your inspection of same and that you place your order at once, as the factory could not supply the demand last season and we, ourselves, were only able to get a portion of our orders filled. So do not delay, but place your order with us at once, that we may be able to supply you before our stock is exhausted. Remember first come first served.

THE GRAND JURY.

Thirty-four Indictments Reported at Present Term—Improvements in Public Buildings Suggested.

The grand jury presented its final report Wednesday afternoon and was discharged for the term. The jury was in session nine days, examined 147 witnesses, dismissed eight cases and found thirty-four true bills. In its final report the jury says: "We have looked into the condition of the court house, clerks' offices and jail and find the jury rooms need repairs in the way of plastering, papering and wainscoting. The court house is in fair repair, Circuit and County Clerk's offices in good order. The jail is in good repair and well kept, except as to locks. The locks are unsafe and practically useless; safe and reliable locks should be substituted for those now in use. Heavy, strong wire screens should be placed over the windows on the first floor to prevent weapons and other things from being handed to the prisoners by parties outside."

The jury expressed its thanks to the court, the Commonwealth's Attorneys, Deputy Sheriff Mackey and the Jailor for the patient hearing and prompt and courteous attention.

Among the indictments reported Wednesday are thirteen against the Standard Oil Company for peddling without a license, several against saloon keepers for selling liquor to minors and one against Dave Brooks for petit larceny.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

FARM FOR SALE.

Having decided to sell my farm, I offer at private sale one of the best farms and prettiest homes in Central Kentucky. Said farm is on the Jackson turnpike, four miles from Paris, four miles from Millersburg, and within one mile of three stations on the Maysville railroad. It contains 325 acres, 150 acres of grass, and in a high state of cultivation. The dwelling is a two-story brick with ten rooms, and is one of the best built houses in Kentucky. There are two barns, two cabins, work shop, granary, buggy houses, coal and wood houses, and every building needed on a well regulated farm. Plenty of fruit of all kinds and never failing water. This farm will have to be seen to be appreciated. Terms easy.

MASS MEETING.

Citizens of Mason County Called to Meet at Court House Next Monday

To Consider the Turnpike Question—A Law and Order League May Be Organized.

There will be a mass meeting at the court house in Maysville on Monday afternoon, June 19th, at 1:30 o'clock to consider the "turnpike question" and "guard law" in all of their aspects.

Let all citizens who value the good name of Mason County and resent the aspersions being cast upon her, be present, and bring with them those who want to lighten the burden of taxation, and to see a valuable return for all public expenditures.

The citizens of Mason County have always stood for law and order, and do not now propose that a few reckless persons shall boldly violate the law and involve the county in expense, and yet escape punishment. If this can not be stopped without the organization of a law and order league, let such an organization be made at once. The people mean business, and are determined to suppress lawlessness whether in high places or low. BY ORDER OF COMMITTEE.

Ghosts would frighten many people who are not afraid of germs. Yet the germ is a real danger. If this microscopic animalism could be magnified to a size in proportion to its deadliness it would show like a giant python, or fire breathing dragon. The one fact to remember is that the germ is powerless to harm the body when the blood is pure. It is far easier to keep the germ out than to drive it out after it obtains a hold in the system. Dr. Pierce's Golden Medical Discovery is the most powerful and perfect of blood purifying medicines. It increases the quantity as well as the quality of the blood, and enables the body to resist disease, or to throw it off if disease has obtained a footing in some weak organ.

Wherever the digestion is impaired, the nutrition of the body is diminished, for the blood is made from the food which is eaten, and half digested food cannot supply the body with blood in quantity and quality adequate to its needs. For this condition there is no remedy equal to "Golden Medical Discovery." It cures ninety-eight out of every hundred persons who gives it a fair trial. When there is constipation Dr. Pierce's Pleasant Pills will promptly relieve and permanently cure.

AN EXTENSIVE STRIKE.

Three Thousand Employees of Trust Smelters Quit Work.

Denver, Col., June 14.—The 3,000 employees of the trust smelters in Denver, Pueblo and Leadville walked out at noon after having extinguished the fires in the big furnaces and put everything in perfect order for a season of idleness.

Within 48 hours, it is predicted, most of the mines in Leadville, Aspen, Creede, Ouray, and the other mining camps of the state, with the exception of Cripple Creek, will be closed, throwing thousands of miners out of employment. The low grade metallic mines of San Juan county already have been forced to cease operations by the strike at the Durango smelter. All shipments of ore and fuel to the smelters have been ordered stopped. As a result many coal mines are preparing to reduce their production and some will close. Almost every industry in the state will be affected.

The strike is due to the refusal of the American Smelting and Refining company to pay the same wages for eight hours as it has paid heretofore for ten or twelve hours.

Preliminary Meeting.

Paris, June 14.—A preliminary and informal meeting of counsel engaged in the Venezuelan arbitration took place at the ministry of foreign affairs. The meetings of the Venezuelan commission will be held in the apartment placed at the disposal of the Spanish-American peace commission. The first formal meeting of the commissioners will take place Thursday morning.

Sloan's Mount Wins.

London, June 14.—At the second day's racing at Ascot Heath Lord William Beresford's four years old bay filly, Jiffy II, ridden by Tod Sloan, won the visitors' plate, a handicap of 300 sovereigns added to a sweepstakes of 15 sovereigns each for 3-year-olds and upwards. Mr. Fairie's Galliot was second and Silver Fox third.

Guests of Honor.

Seattle, Wash., June 14.—United States Senator C. W. Fairbanks, Captain Terry, of the battleship Iowa, and James J. Hill, president of the Great Northern railway, were the guests of honor at a banquet at the Rainier club.

Date of Democratic Convention.

Baltimore, Md., June 14.—The Democratic state central committee decided to hold the state convention in Baltimore August 2, at which a candidate for governor, comptroller and attorney general will be selected.

Anniversary of Santiago Battle.

Omaha, Neb., June 14.—The anniversary of the naval battle of Santiago is to be celebrated at the Great American exposition, July 3, and Admiral Schley has been invited to take part in the ceremonies.

United Workmen.

Indianapolis, Ind., June 14.—The supreme lodge A. U. O. W. gave its attention to questions of a routine character. About all the business coming before the body is in the form of resolutions which are read and sent to a committee and the committee's report is then adopted.
